SKILLS

Languages: Python, Java Script, C, C++

Technologies: HTML, CSS, React, MySQL

Concepts: DSA, Computer Networks, Automata Theory, Artificial Intelligence and Machine Learning

EDUCATION

JSS Academy of Technical Education

Bachelors In Computer Science Engineering
2021 - 2025 GPA: 7.73

ST. Karens Secondary School

12th Boards, Science Stream
2018-2020 PERCENTAGE: 86

INTERESTS

Cricket Board Games

Travelling Badminton

SOCIAL ENGAGEMENTS

- Coordinator: of various events conducted in our college
- Volunteer: at HITAYA FOUNDATION - NGO run by students to help underprivileged children.

PROFILE

Passionate and dedicated Computer Science student with a strong foundation in software development, algorithms, and data structures. Experienced in various programming languages, including Python, Java Script, C and C++, with a keen interest in web development and machine learning. Proven ability to solve complex problems through innovative solutions, demonstrated by successful academic projects and internships. Eager to contribute to dynamic teams and apply my skills in a real-world environment. Seeking an internship or part-time position to further develop my technical abilities and gain professional experience.

PROJECTS

Template for Online Yoga Training Centre

HTML, CSS, Java Script

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript, showcasing skills and projects effectively across all devices.
- Implemented interactive features with JavaScript, such as dynamic project galleries, smooth scrolling navigation, and contact form validation, enhancing user engagement and functionality.
- Optimized website performance through efficient CSS and JavaScript code, resulting in faster load times and improved user experience.
- Ensured cross-browser compatibility by testing and refining HTML, CSS, and JavaScript code for compatibility with major web browsers.

Online Expense tracker

HTML, CSS, jQuery, mySQL

- Developed an expense tracker web application using HTML, CSS, jQuery, and MySQL, enabling users to manage their finances effectively.
- Designed an intuitive user interface with HTML and CSS, providing a seamless experience for adding, categorizing, and tracking expenses.
- Implemented dynamic functionality with jQuery, allowing users to add, edit, and delete expense entries without page reloads, enhancing usability and efficiency.
- Utilized MySQL database to store and manage expense data securely, ensuring data integrity and reliability.
- Implemented user authentication and authorization features using MySQL, allowing users to securely log in and access their personal expense data.

EXPERIENCE

FILO EDTECH PVT. LTD.

Software Engineer Intern | Oct 2022 - Nov 2022 | Remote

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript, leading to a 30% improvement in user experience and a 20% increase in mobile traffic.
- Applied intermediate CSS styling techniques, such as colours, fonts, image and spacing, etc. to enhance the visual appeal of web pages.
- Implemented responsive design using CSS media queries, ensuring web pages are mobile-friendly and accessible on various devices.
- Learned front end web development using HTML/CSS, JavaScript.
